CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS Invaluable remedy for all diseases of the Throat and Lungs has attained a celebrity from its wonderful cures, never equalled by any other medicine. Other preparations have performed cures of colds, coughs, and settled consumption, but this is the only remedy with which we are acquainted, that can be relied on in all cases of pulmonary complaint, however distressing or dangerous. A few years of trial, in every section of the country, has made the virtues of this remedy known. A few years of trial more will make it as universally known as it deserves to be. Public confidence is established, and the demand for it is constantly increasing. It seeks out the disease in the blood, and by the vitality which it imparts to that fluid, it expels the disease from the system, and restores the patient to health. Its power to cure is astonishing, and the evidence of this is so abundant, that no one need suffer from pulmonary complaints, however dangerous, without trying the Cherry Pectoral. Keep it by you, and when the first symptoms of disease appear, check it. Delays are dangerous. Don't wait until you cannot sleep, and then expect an anodyne to relieve the distressing cough, but take the antidote in time, and prevent the attack. Many lives might have been saved by timely precaution, which have been sacrificed to the use of opium in some form, in quieting the cough, which is only a symptom of disease, and not the disease itself. Leave off the use of opium, and use the Cherry Pectoral, and health will follow.

The following letter from the well known Druggist of Dublin, Multnomah, one of the largest dealers in the State, and the first merchant from his own observation:

DUBLADE, Mich., Dec. 15, 1849.

DEAR SIR,—I have sold no remedy for your Cherry Pectoral, I could subscribe to an acquaintance of mine who was hoisted to a near limb with quite a comprehensible rattle in the throat, and was extremely feeble. His friends believed he must soon die, as no relief could be obtained for him. I ordered for him a dose of your excellent medicine a short time, he was able to walk from his bed, and was entirely well. He is now attending to the business of his farm, and says he will never be without your Cherry Pectoral, as long as he can obtain it. Yours truly, C. W. UNDERWOOD.

Prepared and sold by JAMES C. AYER, Practical Chemist, Lowell, Mass.

☞ Sold by Agents in the following places: Bangor, Hall & Ingraham, Stimpson & Johnson, Fogg & Guild; Portland, G. W. Holden, Burleigh, Fuller & Co.; B. Hall, Wm. G. Foss, Ilsworth, Burgess, and by all the Druggists generally throughout the country. feb 25—stawd&w3m

THE TRIBUNE FOR 1851.

☞ Now is the time to Subscribe! ☜

THE DAILY TRIBUNE

is issued every morning except Sunday, in a large sheet of four pages, forming [illegible] pages of six columns each, or about the size of the London Times. Average County Newspaper. About six of these papers are now required to contain the aggregate of Editorials, News and Miscellanies being greater than of any other paper in America, and greater than of any London or two in England, though its price is but *one-half* that of other first class Journals in England. Two Evening Editions are issued to supply early subscribers with the latest news up to the hour when the mail must be closed.

The Tribune is edited in a style by Horace Greeley, who has special charge of all matters pertaining to the Politics and Legislation of our own Country.—Its Foreign (Old World) Department is in charge of Charles A. Dana, assisted by able correspondents in London, Paris, Constantinople, &c. &c. Its Cultivators, Mechanics and City Departments are in charge of Richard Taylor, assisted by an efficient corps of Reporters. Monetary matters will be specially attended to, and news from all quarters, by Telegraph, Express, Steamships and Mails, as early and reliable as that in any other paper. Price $5 a year, in advance, three copies for $10, &c.

THE SEMI-WEEKLY TRIBUNE

contains nearly all the non-commercial matter of the daily, except such as is of local interest, or has been superseded by fuller and more recent advices before the semi-weekly is issued. It is of the same size with the daily, but has [illegible] columns. Price $3 a year, in advance; 5 copies for $10 copies for $20.

THE WEEKLY TRIBUNE

is issued every Thursday morning, and contains most of the matter of the Daily with more extensive accounts of such events and proceedings as cannot be published in a cheap form. We do not think we Weekly shall surpass this year in the [illegible] graphic and faithful account of what is [illegible] in the world, whether of Politics, and how in Literature and Science.

KITCHEN & HENDERSON'S

HAIR PRESERVATIVE.

THIS article has been before the public nearly two years, and the proprietor is prepared to say that for REMOVING DANDRUFF from the scalp,

RESTORING HAIR WHERE FALLEN OFF TEMPORARILY,

and giving it a BEAUTIFUL SOFTNESS, AND GLOSS, CANNOT BE EXCELLED. The basis of this Preservative is a pure vegetable Oil, extracted from a plant found growing [illegible] in the Western States, and which possesses, in a remarkable degree, the essential properties requisite for

REPRODUCING AND BEAUTIFYING THE HAIR,

by exciting upon and reviving its glands or roots—Those who faithfully apply this Preservative, will be surprised at finding their silk-like and glossy locks restored to their natural beauty, and the scalp established, and affords the most agreeable sensations. It has already been extensively used, and in every instance has given perfect satisfaction.

REASONS FOR USING THIS PRESERVATIVE.

1. It is a very pretty, CLEAN article, and has an agreeable perfume.
2. It is put up in a very convenient form, and at a very reasonable price.
3. Acting as a stimulant, it affords relief to the Head ache.
4. It gives to hard brashy Hair a desirable moisture and softness.
5. It promptly arrests the falling off of the Hair when that evil has commenced, and promotes the growth of new Hair. In fine, it does all for the Hair that any preparation for restoring and improving the ornament of the head can possibly do.

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

A THE VEGETABLE PILE ELECTUARY, invented by Dr. Upham, a distinguished physician of New York city, is the only truthful, certain, safe, and speedy cure for that dangerous and distressing complaint the Piles, ever offered to the American public.

The Electuary contains no *Mineral Medicine*, no *Mercury, Colocynth, Gamboge*, or other powerful and irritating purgative. No fear of taking cold while under its influence, or change of diet. Persons of taken according to directions a *cure for life is guaranteed.*

Another certificate added to the hundreds that have already been received of the efficacy of Dr. Upham's Electuary.

NEW YORK, August 25, 1846.

Messrs. Wright & Sherman—Gents: For several years past I have been troubled with piles, a very common complaint with persons of sedentary habits, and a dread I had of physicians and patent medicines, that until this Spring I never used any medicine or applied to a physician for relief. Consequently I suffered for them as many others have done, without any benefit. Determined after this to try other means, I read an advertisement of a piles guaranteed by the use of Dr Upham's Electuary. I purchased three boxes at your store, and from the use of which I found myself entirely rid of those Piles and my health much improved. I remain also your much indebted friend.

The writer of the above, from motives of delicacy, declines having his name used; but authorizes us to refer to him, or show the original certificate to those who may doubt its authenticity.

Another facsimile relating to the Efficacy of Dr. Upham's Electuary.

PHILADELPHIA, Sept. 9, 1846.

Dr. Upham—Dear Sir: About five years ago, I was afflicted with what was called Chronic Dysentary. I have suffered with it every now and then ever since, and physicians have told me that my liver was affected, and that my bowels were incurable, for blood and pus attended with a peculiarly putrid smell were the frequent discharges. A short time since I made a visit to Massachusetts, in hopes of benefit from a change of air, but suffered more severely than ever before. While there, a physician gave me for $40 in three months—Happily, in the midst of intense pain, occasionally relieved by laudanum, I saw in a wrapper of your Electuary a perfect description of my complaint, together with many certificates of cures. This gave me great confidence in the medicine, and I purchased a box, and from three of which I has apparently cured me, and am prepared to say every thing in its favor, as candor and opinion I can to humanity by subscribing to its merits.

Respectfully yours, BENJAMIN PERCIVAL,

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, ... Boston.

IN 1840 the undersigned was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transaction of Models, and adopted more expeditious mode of sending them to the Patent Office, *where any Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all [illegible] in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *thereby, in general of far greater importance in order to obtain correct specifications and claims.* The experience of sixteen year's practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors advice of procuring Patents, assistance and information which in other respects might be difficult or [illegible].

H. B. EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, H. B. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons sitting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and none capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

Tannery for Sale;

MONEY TO BE MADE AS WELL AS LEATHER.

THE Tannery, in Sebec Village, in Piscataquis County, is now for sale, on the most reasonable terms. The Main building is 65 feet long and 24 feet wide—2 stories high. In the third story the bark is ground, and thence it runs into the bark room in the second story, and thence into the Leaches. In the second story is the Currying Shop. In the first story are nine Leaches, directly under the bark room. A Heater, a copper bott, and one leach at two heatings, filling three leaches a day. There are nine Water Pits, a Fulling Mill and a Force Pump.

The part of the Tannery is 56 feet long by 24 feet wide—2 stories high. In the second story is the Drying Room. In the lower stories are 20 Tanning Vats, capable of holding 3000 sides of leather.

This Tannery, in full operation, can tan 4000 sides in a year, consuming 1000 cords of bark—Bark is worth at the tannery $2,25 per cord. The price of transportation of hides and leather to and from Bangor is five dollars per ton.

The water power is constant, abundant, and unfailing. It cannot be surpassed. The supply of bark can never fail. The premises are in a very good state of repair—though they will need some repair the ensuing season.

This tannery will positively be sold very cheap—cheaper than it can ever be purchased again. A rare chance is offered to a man of moderate means of establishing himself in a very profitable business—a business, filled with ordinary skill, energy, economy and ability, will ensure him not only a competency, but a considerable fortune in a few years. Seven hundred cords of bark, now on hand, may be purchased of the Messrs Bradford at the tannery.

A perfect title to the premises will be conveyed to the purchasers by the owners, Messrs Sidney B. Morse & Co., Boston, Mass., to whom or the subscriber, their Attorney, at Bangor, applications for purchase will be made.

WEDNESDAY, APRIL 2, 1851.

☞ We have been favored recently by a friend in England with copies of the London Times, the most expensive as well as the most influential paper in the world. We have noticed that its editorial columns are turned to a consideration of the wrongs of the social state in that land of social contrasts. The last Times has an able editorial article on the condition of those children of pauper families, who pass from the care of the Poor House Overseers to become servants in families or apprentices in shops, in which are exposed the many wrongs which may be inflicted upon such, and the entire hopelessness of remedies, where there are no parents and friends to look after their welfare, and to feel interested for their comfort and happiness. It speaks of a remedy by legal enactment for some of the numerous evils arising in cases of abused children, after they have passed from the care of the Poor House, many of which evils have been brought to light by recent investigations, and the weakness of the existing laws fully tested. The deficiencies of the law will be remedied by enactment, but the necessity for these enactments and the character of the legal remedies sought, have brought to light the great defects in the social system. To some of these defects and wrongs and their remedies, is the attention of the English press now turned. It is a new thing for the London Times to turn its keen eye to the pains and pangs of a poor, humble apprentice boy or servant girl, stowed away in some dark cellar in London, toiling for some brute of a man or passion, and to demand of Parliament the application of appropriate remedies for at least getting the apprentice out from such infernal guardianship.

But it is the fashion now in England to look deeply into the wrongs of the social state and to seek for remedies. One of the Lords of the realm declared at a public meeting recently, that he had become the greatest beggar in London in order to sustain the enterprise of the Ragged Schools, in which were gathered and clothed and fed and instructed the wretched, outcast and neglected children of that great city. We trust this fashion of considering the condition of the poor and the tempted and the fallen will continue until it shall become a principle, and until the true remedy shall be found lying back in the very frame-work and structure of society. How can a society be otherwise than unequal, when a hundred homes and a thousand hands are made tributary to one home and to one person? In order to equality, labor must be allowed to enjoy its own earnings, and to live on the fruits of its own productiveness, while the idle man, if any man, shall go hungry to bed.

In England there are difficulties in adjusting the social organization. Wrong has become a chronic disease in the body of society, and palliatives and soothing syrups must be resorted to. But all this should cause the free, young, earnest people of our own land, to be determined that similar wrongs shall not be woven in the web of society here. To avoid it they should favor those liberal laws which are calculated to secure the largest equality and ensure to each man the earnings of his industry, and to each family a home.

It was a remark of an English philosopher that abundance of unoccupied land was the great treasure which mankind found in America. There was meaning in the remark, and it should be the resolve of the American people to keep this great treasure from the iron grasp of the monopolist and speculator, and to reserve it for mankind.

The means of acquiring and preserving a home, and that system of association which shall secure to labor its whole earnings, will remedy, in our country, many of the sore evils which now so greatly afflict and perplex and stagger the English nation.

Bangor Gas Light Company.

We learn the Company was organized yesterday. The following persons compose the board of Directors—M. L. Appleton, Leonard March, W. H. Mills, James Dunning and Albert Holton.

The directors made choice of M. L. Appleton, as President of the Company, and Albert Emerson, Clerk.

Discovery of a beautiful Cave in Manchester, Vt.—We learn from the Vermont Union Whig, that a party of hunters discovered a large and singularly beautiful cave in Manchester, in that State, on the 7th inst. The cave is situated upon the southern extremity of the Equinox mountain, about half way from the basis to the summit. The entrance is by a gradual descent of about thirty feet, into a spacious apartment, measuring thirty-six feet in length, twenty-seven feet in breadth, and thirteen feet in height, and having a bottom as level, and almost as smooth as a floor. From this room, a narrow passage leads into an apartment far exceeding the former both in extent and magnificence, and in which were found three colossal pillars, twenty feet in height and fifteen feet in circumference, of spectral whiteness, and smooth as polished marble. In the third room were found considerable quantities of iron and lead, together with a kind of ore resembling silver. The explorations were continued until after passing through no less than nine apartments, when the party found themselves upon the brink of a precipice. On throwing down a large stone, a faint splash was returned, after an interval of several seconds, from which was inferred the existence of a pond of water at the bottom of the abyss. The whole of the cavern, with the exception of this pond, was perfectly dry.

Proceedings Relative to Houlton Academy.

A meeting of the students of Houlton Academy was held at the Congregational meeting-house in Houlton on Wednesday evening, March 26, for the purpose of expressing in a public manner their affection and regard for their late preceptor, Mr. Milton Welch.

The meeting was called to order by Henry M. Spaulding; James T. Bradbury was chosen Chairman and Nathan W. Blanchard Secretary. Prayer was offered by Rev. Mr. Emerson. The following resolutions, adopted at a previous meeting of the students, were then read:—

Whereas, The late preceptor of Houlton Academy having dissolved his connection with that institution, expects soon to leave us, therefore,

Resolved, That we most deeply regret being deprived of his valuable services as an instructor, and that circumstances have prevented him from remaining with us a longer time.

Resolved, That we have perfect confidence in the ability and faithfulness of Mr. Welch as an instructor, and as such do most cheerfully recommend him.

Resolved, That the interest which our late preceptor has ever manifested in our welfare, and the unwearied pains he has ever taken in instructing us, demand from us and shall ever receive the liveliest affection and gratitude.

A gold watch and chain were then presented to Mr. Welch by N. W. Blanchard, in behalf of the students of Houlton Academy.

On presenting the watch, Mr. Blanchard made the following remarks:

"Mr. Welch—I have the honor to be selected by my fellow-students to address you in their behalf on the present occasion. During more than two years, many of us have been favored by your kindly aid in our efforts to prepare to act well our part on the theatre of life. You have cheered and encouraged us along the rugged path of science, which without such encouragement we should long since have fainted by the way. But that aid is about to be withdrawn. We are soon to separate. The endearing relation of teacher and pupil is to be dissolved forever. Ere we part, however, I am directed by your pupils to say (and these are no unmeaning words,) that they deeply feel this coming separation. And as a slight token of their regard, they beg your acceptance of this watch. As it marks the progress of the days and hours and minutes as they roll onward in their silent uniformity till they are lost in eternity, let it remind you of the constant and unabated affection of your former pupils; and although this instrument will require constant winding up in order that it may make the progress of time, and its machinery will keep getting out of repair and wearing out, yet our love shall know no abatement or decay."

Mr. Welch briefly replied. He expressed his gratitude to his pupils for their very munificent and beautiful gift, as unexpected as it was appropriate. He referred to a former testimonial of their respect and kindness which he had received less than a year ago, and which, with the present offering, would constitute some of the richest treasures of his heart. Recalling many of the incidents which had transpired during his two and a half years' stay with them, he stated that during all that time, he had never received one contemptuous or reproachful word, in school or out of school; that he had never once asked a favor or requested assistance, whether to assist him in his recitations, to help in the preparation for experiments, to arrange and number minerals, to plant a tree or to clean the house, which was not immediately and with the greatest willingness rendered.

The inroad which death had made in their band was alluded to, and the changes which even so short a time had wrought among their numbers. He stated that the students of Houlton Academy were already found in the British Provinces, in the Atlantic cities, on the prairies of the Great West, and in the mines of California.

That great truth which the watch was constantly repeating, that "we are passing away," should ever impress us with the necessity of doing all in our power while in life—ere it be said of us that we "have passed away."

He concluded by recalling to their minds the incident of their parting at the Academy, when the eyes of more than fifty pupils were suffused with tears—an incident, which he should cherish with a sweeter remembrance than any other incident of his life, and that however proud and gratified he might feel for this night's demonstration, he should ever return to that with a more heartfelt pleasure and a purer delight,—not that he loved this beautiful and expressive present *less*, but that infinitely, infinitely *more*.

The students of Mr. Welch, late teacher of Houlton Academy, and the citizens of Houlton and vicinity, having met according to notice on the evening of the 26th of March, 1851, for the purpose of expressing their feelings in regard to the sudden dismissal of Mr. Welch from his office of Preceptor, and for other purposes, after the presentation of an elegant gold watch and chain to Mr. Welch, with sundry complimentary resolutions and remarks, the large assembly present, on motion of Jas. A. Drew, Esq., proceeded to organize by the choice of John H. Bradford as chairman and John F. H. Hall as secretary.

It may be well here to remark that of the four Trustees voting for the dismissal of Mr. Welch, three had never visited the school during the two and a half years it had been in operation.

The following preamble and resolutions, offered by Jas. A. Drew, Esq., were read to the assembly by the secretary.

Whereas, The Trustees of Houlton Academy, a few days since, gave Mr. Welch, the teacher, a discharge to take effect at the close of the present term, whereupon Mr. Welch at once resigned his office; and whereas this is a matter in which the public have an interest, and on which they have a right to form and express their opinion, therefore,

Resolved, That the act of the four individuals constituting a majority of the Board of Trustees, was hostile to the interests of the Institution, and a gross violation of the wishes of this community.

Resolved, That the disregard of the feelings of scholars, parents and the public, shown in this act, results from the accidental incorporation of a very small Board of Trustees and the unjustifiable retention of the control of the Institution in their own hands, contrary to the pledges understood to have been given at the time of obtaining subscriptions.

Resolved, That we have reason to fear that the bounty of the State is not to be used solely for the public good in the promotion of education, but that it may be prostituted to purposes foreign to the objects for which it was intended.

Resolved, That while we regret the breaking up of the school at the commencement of the term, we believe Mr. Welch acted from a commendable self-respect in at once placing himself beyond the reach of insult.

Resolved, That the fidelity, zeal and ability of Milton Welch in the school-room, have won for him the reputation of an able and efficient teacher, while his example and influence in the community have always been such as we could heartily commend.

Resolved, That the reputation acquired by the Houlton Academy since its opening, under the care of Mr. Welch, the increasing number of scholars from this town and from abroad, the unusually large number with which this term commenced, and the fact that on the day subsequent to his leaving the Academy another and a larger school was tendered him, containing nearly every scholar belonging to the old one, prove better than resolves that he deserved and possessed, in an unusual degree, the confidence of his pupils and of the public.

Resolved, That Mr. Welch, whether he shall remain or depart, has the love of his pupils, the respect and confidence of those who have patronized his school, and the good wishes of the community.

Moved and seconded, That the preamble and resolutions be adopted by rising.

And they were unanimously adopted by the audience rising in their seats with one accord.

Moved and seconded, That a copy of the doings of this meeting be signed by the Chairman and Secretary and presented to Mr. Welch, and that they be published in some of the papers of the State.

John H. Bradford, Chairman.

John F. H. Hall, Sec'y.

Law Reform Meetings at Hampden.

[Reported for the Whig and Courier.]

At a series of public meetings held at the Academy in Hampden for the purpose of considering the subject of Law Reform, the following resolutions were adopted:

1. Resolved, That we regard our present system of administering civil justice as aristocratic in many of its provisions; inconsistent with a republican form of government; not in keeping with the improvements of the age; burdensome to the tax-paying and laboring community; partial and unjust in its operations; abounding in forms and technicalities which defeat the true ends of justice; nullifying the declaration in our bill of rights which secures to every citizen, justice completely and without denial, promptly and without delay.

2. Resolved, That by its arbitrary and absurd rules, adopted in part from old half civilized countries under despotic governments, it often subverts the true meaning of plain statute law; making almost endless legislation necessary to protect the community against the operation of these unjust rules.

3. Resolved, That, to remove these evils, we recommend that our State Constitution be so amended that all officers of justice may be made elective by the people, for a limited term, as well as all executive officers.

4. Resolved, That the proceedings of our Court should be so simplified as to keep up with the improved state of society, as they have been in New York and several other States of the Union.

5. Resolved, That we should have one Court of appeals, with power to do justice between parties, unshackled by unjust rules and precedents.

6. Resolved, That, to prevent unnecessary strife and litigation, we recommend the creation of "Courts of Conciliation," something after the manner of those in operation in some of the countries of Europe, and recommended to the people of Oregon by the Hon. T. H. Benton.

7. Resolved, That, in order to obtain the united and concentrated strength of the people to perfect and carry out these reforms, we recommend a State Convention of the people, with authority to revise the Constitution, as well as to consult on the necessary reforms in our laws.

8. Resolved, That we will petition our next Legislature to take the necessary steps to call a State Convention to revise the Constitution preparatory to these reforms.

9. Resolved, That we have no reason to expect the aid or co-operation of the practising legal profession generally, in reforms which will in any way diminish their income.

Voted, That these proceedings be presented to the several newspapers printed in Bangor, for publication, and that all other newspapers published in this State, favorable to the cause of reform, be requested to copy.

Wm. F. McReed, Chairman.

Ezekiel Burkins, Secretary.

Grand Fancy Dress Ball in Portland—Great Display.

Portland, March 23.

The Grand Fancy Ball which came off here on Friday, the 21st inst., was indeed a brilliant affair. "Umpire Hall" was gaily decked for the grand event, at 8 o'clock. Portland's brave sons and fair daughters were in for treading the

"Mazy windings of the fairy dance."

Bright eyes flashed beneath nodding plumes, far surpassing the glitter of the jewelled dresses—We felt ourself in for a time, but soon we were lost amid the representatives of all nations—the grave Turk, the sprightly Spaniard, daring Greek, John Bulls, Highlanders, and sons of the Green Isle—in fact, dear Times, we recalled that night in fairy land! The music, sweet and voluptuous, floated round us. That music was from Morse's Cotillon Band, and the best of the season.

The whole affair was superb, and the first in this place for many years; and it was got up by the following gentlemen, who were the managers:—Messrs. Fowler, Allen, March and Riggs, to whom much credit is due. I send a few names of the principal characters of the evening.

Miss A—ms, as an Indian Girl, very pretty costume.

Miss H—s, as a Highland Lassie, very fine costume.

Mrs A—ls, as a Yankee Girl, well acted.

Miss A—lo, as a Peasant Girl.

Miss L—l, as a Swiss Girl, well dressed.

Miss C—n, as Polka Costume.

Miss F—ks, in a very pretty fancy dress, looked lovely.

Miss J—son, as Favorite of the Harem.

Miss J—ly, as the Countess, in "Love."

Miss S—r, as a Greek Girl of the Isles.

Miss M—t, very neatly dressed, as were also the rest of the ladies.

Mr. Fowler, as a Spanish Nobleman; splendid suit.

Mr. Charles Allen, as Slah Bean, Yankee Pedler; this gentleman kept the company in good spirits by his drollery, all night.

Mr. Charles March, in Military Uniform.

Mr. J. Riggs, as a Spanish Cavalier; finely dressed.

Mr. Woodman, as Charles the 2nd.

J. A. Conly, as Gaoler, looked well.

H. Boothby, as the Duke of Buckingham.

H. N. Rich, as John Dick, in the "Jacobite."

L. Burne, in Moorish costume, looked his character.

Mr. Boothby, as a Highland Chief, finely dressed and looked well.

J. Knight, as Page to Queen Elizabeth.

William Allen, as a Yankee Pedler; quite a genius.

L. Biley, as Don Cæsar de Bazen; well dressed.

William Warner, as a buccaneer during the first of the evening, then changed for a Highland suit.

R. J. McPherson, as Marco Bozzaris, the Greek patriot.

J. Rydcliffe, in a Turkish suit; well dressed.

Mr. Walker, as an English millionaire; well done.

Mr. Searle, as a sailor.

Dr. Heald, as an Esquimaux, looked savage yet only.

Messrs. Jewett, Scammon, Foss, and others, as Saco Guards.

Mr. Hays, as an English Jockey, looked well.

Many gentlemen appeared in military uniforms, and our firemen's uniform looked finely amid the gay throng. It was a happy time, and when the next Fancy comes off, may you be there.

Macariel, Jr.

Mexican Claims—Mr. Webster, &c.

Washington, March 31.

The Commission for the settlement of Mexican claims will adjourn its session on the 19th of April. They have already allowed claims to a greater amount than was stipulated by the treaty. It is thought that Mr Evans, the Chief of the Commission, will be offered a seat in the Board for the settlement of Land Claims in California, in case Mr Ingersoll should decline.

Secretary Webster will leave here to-morrow for Marshfield via Harrisburg and New York. At the former place he will visit the Legislature.

The Norfolk Beacon learns that the Hon R. C. Schenck, Minister to Brazil, Franklin C. Clark, Sec'y of Legation, and Hon John Pendleton, Charge to the Argentine Republic, will sail in the steamship Susquehanna about the first of May for their destination.

Capt. Fitz Gibbon is now on his way to Washington to communicate to Government some important facts in relation to Central American affairs.

Gen. Cass in the Field.

New York, March 31.

Advices from Texas to the 13th inst., announce the receipt of a letter by a gentleman at Indianola from Gen. Cass, in which he says he will be a candidate for the Presidency at the ensuing election, if nominated by the National Convention of the Democratic party.

Lieut. Underwood and Capt. McCullough were in pursuit of a large body of Indians who had crossed Rio Frio.

Albany, March 31. Mr. Suydam, accompanied by the Deputy Sergeant-at-Arms, has arrived in the city. Mr. Bull has returned. The select committee have been in secret session since nine o'clock.

Richmond, March 31. The Virginia house of delegates still insist in opposing the sending of a copy of the compromise resolution to Vermont.

Pittsburgh, March 31. Bishop Potter, this afternoon, laid the corner stone of a new Episcopal church.

The case of J. & E. Brooks vs. Telegraph Company, Morse's Line, between New York and Washington, went to the Jury this morning, which, after a few minutes deliberation, brought in a verdict for the plaintiffs, $300.

Baltimore, March 31.

Mr Webster, with the Mayor and Common Council, have been invited by the Pennsylvania Legislature to visit Harrisburg and partake of an entertainment on Friday week.

A large number of free negroes have arrived at Savannah to ship for Liberia.

Fires.

New York, March 31. The tannery of Henry Waterman, in Herkimer Co., was consumed on Thursday, loss $12,000. The flouring mill, of Mr. A. Case, of Michigan City, has also been destroyed. Loss $14,000 of which $5000 is insured in the Ætna Office, Hartford.

Washington, March 29.

The Army Commissioners have purchased Wendley, a beautiful country seat near Georgetown, by Colonel Lorenzo Thomas, Assistant Adjutant General, for one of the new Military Asylums. The price paid was $20,000.

The Postmaster General left the city yesterday on a short visit North.

Relics of a Headdress.—At the ball at Nottingham in honor of Lord Howe's victory of 1st of June, 1794, amid the glare of diamonds, pearls, and other jewels, ostrich feathers and flowers, Mrs. Musters' headdress was a simple wreath formed from a branch of natural oak, three acorns from this chaste and appropriate appendage were, after breakfast the following morning, planted in the presence of the company by the Countess Howe, on the lawn at Colwick. All the acorns grew, were "tenderly cared for," and are now handsome trees.

The World's Exhibition in London, will doubtless be a grand affair, but so is *Jewett & Prescott's* Silk and Shawl Store, No. 2 Milk Street, Boston,—at least the manufacturers of Europe and India are well represented at the latter, place, and it is quite certain a visit there will be profitable.

☞ Miss H. E. Call would inform her friends and pupils that the commencement of the Spring Term of her School is unavoidably postponed to Monday, April 6th. April 2. 1w*

George Farrington's Oyster Saloon is just the place for the traveller to call and refresh himself, no matter what the choice or taste may be. Mr. Farrington's table is abundantly supplied with Oyster Soupe, Pig's Feet, Sausages, Pickled Clams, Hot Coffee, new Cider, Honey, &c. &c., two doors beyond the Old Market.

Bliss's Compound Cod Liver Oil Candy.

For the past year, this invaluable remedy for all affections of the throat and chest has been before the public, and numerous are the testimonials of its excellence which the proprietor has at his command. Cod Liver Oil has been used, but not very extensively, owing to its offensive smell and repulsive taste. The Candy retains all the virtues of the Oil, but is entirely free from a disagreeable flavor. No remedy that we know of is one half so valuable as this, and we commend it to the public notice, cautioning against counterfeits.

Prepared only by B. K. Bliss, Druggist, Springfield, Mass. Price 25 cents a package. For sale in Bangor by LADD & INGRAHAM. d&w [illegible] 27

THE Great American Remedy

FOR Colds Coughs Asthma, Whooping Cough Croup and all diseases of the Chest and Lungs has now been sold for before the public and its reputation is so established as to render unnecessary the usual recommendations of its qualities, as from the invariable testimony of its use it is evident that all who have used it *that would be accommodated* have found it an effectual remedy for the diseases it claims to cure. Every druggist in the country can testify to the truth of this assertion. As a family medicine it cannot be outdone. In double the usual dose it almost invariably vanquishes the child in the first stages of croup and relieves and cures it immediately. For quite a number of years it has been the favorite and universal remedy in all the cases name of some of the most celebrated and skilful physicians.

Sold wholesale and retail by R K HARDY at No 3 Harlow Block Bangor, and by Druggists generally throughout the country All orders will be promptly attended to nov 15

BRANT'S INDIAN PULMONARY BALSAM.

The Great COUGH REMEDY.

Many years of experience and more than a Thousand Cures of Consumptive Complaints have proved to the proprietor of this preparation that it greatly superior, because it is soothing and healing to the tender organs of the throat and lungs, than any to be found in the world We know however, that it can be by some that Consumption can not be cured But as the opinion of the many or the few should not influence a sufferer which but a trial can prove, we ask only a fair trial of this Balsam, which has proved in the cure of Coughs Colds Consumption of the Lungs, than any to be found in the world We know however, that it can be by some that Consumption can not be cured But as the opinion of the many or the few should not influence a sufferer which but a trial can prove, we ask only a fair trial of this Balsam, which has proved in the cure of Coughs Colds and diseases of the Lungs, before its merits were established, even Consumptions, and which were at length abandoned by the Physicians as incurable, after they had exhausted their skill in vain. This Balsam is pleasant to the taste, and contains nothing that can prove injurious to the most delicate constitution in any stage of it's use. In Asthma, Bronchitis, Croup, Whooping Cough, Influenza, Hoarseness, Pain in the Side, and Breast, Difficulty of Breathing—*Purchasers Directions on the Bottle* and Blood Spitting, Night Sweats—and wasting away of the flesh and limbs, Fever and Ague, and Liver Complaint, and all diseases of the Throat, Lungs, Liver, Stomach, Kidneys, and Blood, this Balsam is unequalled by any other preparation in use. Even in the last stages of Consumption, and when all hope is given up by physicians, friends and patient, relief will be found in the use of this Balsam. Thousands have been saved by it, after they had been pronounced by physicians incurable—and many of those who were saved from the grave by this Balsam, were in the last stages of Consumption, and when death was supposed to be in a few hours. Many who were supposed to be in a dying state, by the use of this Balsam, are now living, and in the enjoyment of good health.

This Balsam is purely a vegetable compound, it is pleasant to the taste and may be taken safely in any stage of it's use by persons of any constitution. It does not prevent or hinder the use of food or change the diet, but on the contrary it produces a healthy appetite, and food tastes good. Expectoration. It Cures the following diseases viz

ELEGANT AND INVALUABLE Articles for the Toilet

Bogle's Hyperion Fluid

For Restoring, Preserving, and Invigorating the HAIR

The following Certificate from Dr one of the most eminent Physicians of Boston shows the estimation in which it is held by the medical profession and learned, being one only of many similar ones

Boston Feb 1850

Mr Wm Bogle—Sir The preparation presented by you for the hair, has been extensively used by me in my family, and they give it the decided preference to all other compounds of the kind it ever came under my notice, as it not only restores the hair without producing any of those disagreeable effects which are so frequent as the result of almost all known patented compounds now

WINSLOW LEWIS

It is an indispensable article for the toilet, because the hair in place and curl, and does not soil the hair from dandruff and scurf Portions of the hair torn from the head in combing or brushing, it lays the foundation of a good head of hair

BOGLE'S AMOLE, A COMPOUND FOR SHAVING.

This delightful article is totally different from any soap for shaving, as nothing yet invented for shaving The basis of it is derived from the Amole plant, which grows in the mountainous regions of California, and is used by the natives of that country for washing the head Those who have suffered from dandruff and scurf in the head can find no better article to use than the Amole, as it will entirely eradicate it in a few days The Amole not only cleanses the skin, but by its detergent properties leaves the skin soft and pliable, and produces a most beautiful and healthy appearance, and is the most nourishing article on the skin—thus rendering the operation of shaving a luxury instead of a task This Amole is unparalleled as a shaving soap, as it will not only shave the most wiry beard, but will leave the skin in the smoothest and most healthy condition, and has been highly recommended by many of the first physicians in the country for its healing properties, and is now used in many of the first families in the city of Boston

There are other articles connected with the Toilet, which are highly recommended by the Ladies, and which will be advertised soon

Prepared and sold by WM MANN Druggist, Exchange St Bangor

Also by the Agents in every town in Maine

LADD & INGRAHAM, G W EMERSON, A K GUILD & CO, Bangor, H P HATFIELD, Bucksport, R K HARDY, Bangor, Dr LITTLEFIELD, Orono, Dr LONGSTER, Milford, and by Druggists generally throughout the country

Hay's Liniment for the Piles.

This well known remedy for the Piles may be confidently relied on as a sure cure for this distressing disease Many persons have been cured by the use of this Liniment after having undergone the most severe operations without relief, and after having been given up by their physicians as incurable Many who have lost their hair for twenty years, have had it restored to its natural color by the use of this valuable remedy In all cases of fever sores it will be found the most pleasant wash that can be used A few applications only are necessary to have the hair from falling out It strengthens the roots it never fails to impart a rich glossy appearance, and a perfume to the toilet It is unequalled by all the various and much puffed hair restoratives now in use, and is the most effectual

☞ *Caution*—Never buy it unless you find the name of Comstock & Co proprietors on the wrapper of each bottle or you are cheated with a counterfeit article

TO OWNERS OF AND DEALERS IN HORSES

Carlton's Ring-Bone Cure,

For the cure of Ring Bone, Foot Founder, Horse Spavin, Windgall, and Splint—or even a remedy

☞ The Ring Bone Cure and the Founder Ointment are prepared from the recipe of a very celebrated English Farrier, and will cure infinitely more cases out of one hundred any offered to the public. They have been used by farmers, livery stable proprietors, and others, with the most marked and decided success

FOR FEMALE AND MALE.

DR LARZETTE'S JUNO CORDIAL, or Positive Elixir, prepared on scientific principles, is a certain remedy for those painful and distressing diseases peculiar to the sex It is also a powerful and speedy
